Appointment Of New Chairperson: Mr Deslin Naidoo

Deslin Naidoo has been appointed as the new **Chairperson** of the Funds, effective 01 July 2023.

Deslin completed a B.Sc (Actuarial Science) and later a B.Comm (Hons) Cum Laude, both from the University of Cape Town, and is also a CFA charter holder.

He entered the investment industry at Old Mutual within the Quants Team which managed c. R50bn in index, structured product and hedging portfolios. Deslin co-created the Old Mutual Floor Fund, the first dynamically hedged CPPI fund in the country.

Deslin subsequently joined Coronation Fund managers, to be seconded as a founding member of Kagiso Asset Managers in the role of Head of Research.

After a brief consulting stint, he joined Alexander Forbes as Head of Investments and Analytics. This completed the circle for Deslin as it relinked him with his undergraduate training. His main function was to manage and oversee all Alexander Forbes investments including the c.R65bn in assets for the AF Umbrella Fund.

His research into asset allocation and risk models lead to the redesign of these LifeStage products into a solutions-based framework. He re-engineered the advice frameworks to integrate risk budgets at a far more detailed level.

Deslin has been a member of the ISASA Investment Sub-Committee for a few years and the Funds look forward to his contribution to the Board as Chairperson.
